

SCREEN USAGE FOR THE MOBIUS MILL M210

The Mobius M210 is a continuous throughput mill with several screen options to customize output ranging from coarse to fine. The chart below outlines the specifications and intended use for each screen, though the Mill operates very differently depending on the strain and moisture. Some customers may use different screens on different stains for the same process.

COLOUR-CODED MEANINGS:

- = recommended use
- = can be used depending on strain and moisture content
- = not recommended for this product

PART #	DESCRIPTION	HOLE SIZE (MM)	HOLE SIZE (IN)	TYPE	PRE-ROLLS	CO2 EXTRACTION	ETHANOL EXTRACTION	HYDROCARBON EXTRACTION
10-02-002803 * CMPS600	COARSE BLENDING SCREEN	6.4 mm	1/4"	Perforated	●	●	●	●
10-02-002804 CMPS470	COARSE STANDARD MILLING SCREEN	4.7 mm	3/16"	Perforated	●	●	●	●
10-02-002805 * CMPS318	MEDIUM STANDARD MILLING SCREEN	3.2 mm	1/8"	Perforated	●	●	●	●
10-02-002837 CMCS200	FINE RASP SCREEN	2.0 mm	5/64"	Rasp	●	●	●	●
10-02-002806 * CMCS160	ULTRA FINE RASP SCREEN	1.6 mm	1/16"	Rasp	●	●	●	●

* = screens included with each M210
